I ME above are First Class, justly popular, and prompt paging companies. They invite investigation into their condition and solicit beasiness entirely upon their real merits. In point of solvency and reliability and honomable dealing, they have but few equals, and no superiors. They are considered and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than rullroad, bank, and other stocks, which are subject to the flactuations of the market, and lable, in times of quark, as the experience of the past tenches, to become almost, if not entirely, viduoless. And while there are Companies outerlag the field of competition, well calculated to misload by publishing partial and one-sided statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep ever and above thoir capital twice the amount, and in most instances four times, needed for the reinsurance of nost instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage,
Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Matual Companies, and a certainty given instead of an uncertainty. All losses promptly adjusted and paid.

CASH CAPITAL OVER - - \$1,000,000 all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. DWELLINGS AND CONTENTS. The solid service long and successfully tried, and the many advantages the Bina Insurance Company passes in its lim, should not be overlooked by those ready to insure and understanding their bests interests.

During "stringent times" the necessity for reliable Leaurence becomes an imperative duty—the ability of property holders to sustain loss being then much less-ough.

[IIIR above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and nonomble dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bords and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depredated below par, and are every way more reliable and permanent than relicoad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of partic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cush surplies on hand sufficient to reinsure their onustanding risks, the above numed companies always have and keep over and above their capital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without felay, and farms risks for a series of years taken at less rures than can be done by Muttaal Companies, and a cratainty given instead of an uncertainty. All losses promptly adjusted and paid.

## Editorial Correspondence.

Cuttago, May 14th, 1860. The city is alive with republicans. A large number of delegates have already arrived, chiefly from the states of the northeast come this evening, who, together with ber, it is said, fifteen hundred or two thou- mills. sand. There is to be a salute fired in honor of their arrival, an illumination, and a torchlight procession by the "Wide Awakes." There have been several showers of rain today, which have laid the dust, cooled the air, and added to the freshness of the face this time.

The prominent politicians, representing the interests of the various candidates for the presidency, are here, working for their favorites. It is understood that Thurlow Wood is Mr. Seward's next friend, while Horace Greeley is laboring with great industry for Edward Bates. It ought not be doubtful which will be successful; but it time; but while traveling he was seized cannot be denied that there is a strong combination against Seward. The bulk of the party are for him. The energetic, active and not likely to live. He has become demen of the party are united in his favor; lirious and is all the time crowing like a while those who are fearful also want a man | rooster at the top of his voice. His case is to carry this or that impossible locality; or now hopeless. who desire to propitiate some dead faction, or fossilized party, are against him. Picking up all these olds and ends and putting | population is now 6,844. Assessed value them together, they make quite a show in of property, \$3,293,695. There are 13,468 numbers, and a good deal more in talk.

To-day the prominent men spoken of are Bates and Seward. As things look now, Lincoln's chances are much better for the Vice Presidency, than for the Presidency, McLean stock is not quoted as high as it has been in some of the newspapers. There is also talk of Chase and Wade. In certain contingencies the latter would rally a large vote; but it is not likely that this contingency will arise. I have great confidence that Mr. Seward will be nominated. and thus save the convention the trouble of looking after a second choice.

I ought to say, also, that the friends of Mr. Cameron, of Pennsylvania, are laborng for their favorite, urging that the "old key stone state" ought to be permitted to furnish the standard bearer; but, so far as

I have heard, with little success. A large number of delegates will arrive to-night, and the speculation of to-day be entirely changed to-morrow.

However much each one is intent upon the advancement of his particular favorite, all are determined to support the nominee with a hearty good will. The best feeling your particular friends shall be retained in prevails among the delegates, while the signs of the times inspire all republicans with a strong hope, amounting almost to a certainty, that the next President of the United States will be a Republican. "So mote it be," responds your correspondent,

P. S .- Horace Greeley, Francis P. Bluir, and five others have issued an address to equilibrium urging the nomination of Judge Bates, a copy of which is enclosed.

THE TARIFF BILL.-The friends of American industry achieved a signal triumph in the House of Representatives on Wednesday last. Mr. Morrill's Tariff bill was passto show of schools, etc. We should be of the most assiduous efforts of the Democed by forty-one majority, and this in spite a full account of these racy to stave it off, or kill it by underhand tacties.

The bill was voted for by the republicans. the democrats of Pennsylvania and New Jersey, and several of the southern whigs. b information. We hope they will Let the fact be marked, that the Illinois and other western Douglas democrats voted against this beneficent measure for the protection and encouragement of American

labor and material development. It is understood that the secretary of the treasury, Cobb, is savagely opposed to this tariff bill, and its rejection by the democratic senate, therefore, is regarded as cerain. -- Chicago Journal.

THAT GERMAN CONVENTION .- The German convention, about which there has been some unnecessary fume, in view of the fact that it was to be held at the same time and place with the national republican convention, met in a quiet room yesterday morning, and after a short consultation, voted that there was no business before the meeting, and adjourned. It was attended by less than a dozen persons, and these were quite agreed that the Massachusetts amendment (concerning which the convention was first mooted) was a defunct issue sor fur as the republican party is concerned. ←Press & Tribûne, 15th.

STRENGTH OF THE BOLTERS.-The following was the exact strength of the southern secession from the Charleston convention: Florida, Alabama, Mississippi, Louisiana

and Texas entire; South Carolina entire, with the exception of one vote; Arkansas with the exception of one vote; Arkansas, ditto; Georgia, twenty-six delegates out of thirty-three, seven having gone home.—(Georgia, which has ten votes, was represented by a double set of delegates—forty in all. The remaining seven, therefore, left in the other convention only count one and three quarters.) Delaware, two delegates, including Mr. Bayard; one delegate has gone home, who agrees with the secoders. and three delegates remain in the other convention for the present. Virginia one delegate, and Missouri three.

The "Irrepressible Conflict" CHARLESTON.-The South, since the late bolt and rumpus at Charleston, speaks of 'the late National Convention," and denonnees the Douglas remainder as "a mere sectional gathering."

In the memorable contest between Mesars. Lincoln and Donglas, the former remarked n his speech at Galesburg: "Whatever may be the result of this ephemeral contest beween Judge Douglas and myself, I see the day rapidly approaching when his pill of sectionalism, which he has been thrusting down the throats of republicans for years past, will be crowded down his own throat. And yet, we do not think the republican standard-bearer thought the chalice was to o so soon commended to his competitor' lips, as it appears. It is seldom that a prophecy and its fulfillment follow so close-

y upon each other.—Rockford Republican. It has been discovered by Lord Brougham that the principle of photography was discovered in 1796, and a paper giving an account of it actually excluded from the philosophical transactions of the Royal Society, on the ground of empiricism.

COURAGE OF A CHILD .- The Cincinnati Gazette of the 3d inst., records the following brave deed of a child, whereby a fear ful catastrophe was prevented:

Yesterday, soon after a freight train had passed Shelbyville, on the Cincinnati and Indianapolis railroad, a rail slipped several inches from its place, but without doing any damage to the train, and without the knowl edge, even, of any one on it. This was a curve, rendering it doubly dangerous. As the passenger train going west neared the place soon after, the engineer discovered a little boy standing in the center of the track energetically waving a handkerchief. He was not inclined to stop, at first, knowing the fondness of all boys for sport; but fearing some difficulty, he whistled and applied the brakes, and succeeded in stopping the train within five feet of the loosened rail. If he had not done so, we should have had to chronicle another shocking railroad acci-

#### Edward Bates.

Horace Greeley, Francis P. Blair and several other distinguished individuals have addressed a circular to the republicans, strongly urging the nomination of Judge Bates for the presidency. Among the reasons given for preferring Mr. Bates and the objections answered against such a course, are these: First, he is both a theoretical and practical emancipationist, a native and resident of a slave state, and of course not open to a charge of sectionalism. Second, he is a beloved and honored citizen of St. Louis, the first considerable city of the slave states, and his nomination would forever fix the position of that city as the Gibraltar of republican principles. Third, he is the favorite of the entire opposition in Missouri; his nomination would promote the nomination of Maj. Rollins for governor and render his success nearly certain. Should the republicans carry Missouri it would go far towards deciding the struggle in October in Pennsylvania and Indiana, and thus that of November in the Union. Fourth, Judge Bates was, in 1856, the president not of the American, but of the whig national convention which assembled in Baltimore; his nomination would induce nine-tenths of those hitherto known as Americans, Union men, whigs, etc., to cooperate with us heartily, and that with their aid, Pennsylvania, New Jersey, Indiana, Illinois and Oregon can be carried for the republicans, taus placing our triumph beyond a contingency. Fifth, there are questions of public policy in legislation on which the republicans are not entirely united, which prevails among the delegates, while the Mr. Bates' nomination would harmonize; and so on to the eighth.

The reasoning does not strike us foreibly at all, and we believe this paper has steadily and constantly advocated the nomination of one of the representative men of the party. That such views are more in accordance with those of the masses of the republican party than those advocated by Mr. Greeley we are confident will be plainly demonstrated by the deliberations and result of the convention about to organize at Chicago. We can afford to wait a few days io see,

The Chicago papers are filled with the details of the preparations for the convention, notices of the arrival of delegates and distinguished men not delegates, the attendance of editors, etc. We should be glad to publish a full account of these things, but our limits would not admit a tithe of them, and we have concluded to rely upon our editorial correspondents entirenot be so forgetful of their duty in this respect as to disappoint us.

The Senate has killed Mr. Grow's Homestead bill, as was expected, by passing a bill altogether repugnant to the wishes of the friends and originators of that beneficent measure. We shall have to wait for a republican administration before we can have the benefits of such a measure.

VOTES AT NATIONAL CONVENTIONS .-- In 1839, at the Harrisburg convention, 254 votes were cast, of which Gen. Harrison received 148, Clay 90, Scott 16.

In 1844 no ballot was taken for president, Henry Clay being declared unanimously nominated by resolution.

In 1848, 277 votes were cast. On the first ballot Gen. Taylor had 111, Clay 97, Webster 21, Scott, 40, McLean 2. On the final ballot, Gen. Taylor had 171, Clay 30, Scott 73, Webster 12.

In 1852, there were 292 votes. On the 53d ballot Gen. Scott had 159, Filimore 112, Webster 21. The platform was adopted by 227 to 60.

At the Buffalo convention in 1848, all the free states and Delaware, Maryland and Virginia were represented; 425 votes were

cast, Van Buren had 244, Hale 181. At the Philadelphia convention, in 1856,

there were 367 votes cast, of which 329 were for Fremont.

We were shown a letter this morning from one of the delegates to the Chicago convention which says, " so far as I can learn, Seward is ahead of any other man, a CHARLESTON.—The South, since the late good ways: still it is possible that his nomigood ways; still it is possible that his nomination may be defeated."

Hon. Francis A. Hoffman, of Illinois, declines the nomination for Lieut. Gov., by the republican convention at Decatur on i account of ill health, brought on principally by the exertions and excitement of the last day rapidly approaching when his pill of presidential campaign. His letter of desectionalism, which he has been thrusting presidential campaign. His letter of declension is felicitous and patriotic through. out, but the closing paragraph seems to us so timely just now, that we cannot forbear quoting it. He says:

In this connection you will allow me to express the hope, that the republican party, at the next national convention, will act in full conformity with the great principle of freedom, having an eye more to the plain demands of justice, liberty and right, than to the availibility of the candidate, or the supposed expediency of unworthy compromises, unfurling rather the glorious banner of true patriotism and principle, than the ignoble lag of policy and party tactics.

Editorial Correspondence.

CHICAGO, May 14th, 1860. The city is alive with republicans. A arge number of delegates have already arrived, chiefly from the states of the nor:hwest. The delegations from the further the citizens accompanying them, will number, it is said, fifteen hundred or two thousand. There is to be a salute fired in honor of their arrival, an illumination, and a torchlight procession by the "Wide Awakes." this time.

The prominent politicians, representing the interests of the various candidates for lar bill, saying he wished to donate five dolthe presidency, are here, working for their lars, and wanted the remainder back. The favorites. It is understood that Thurlow Weed is Mr. Seward's next friend, while Horace Greeley is laboring with great industry for Edward Bates. It ought not be doubtful which will be successful; but it time; but while traveling he was seized cannot be denied that there is a strong com- with a severe pain, and was taken home, bination against Seward. The bulk of the party are for him. The energetic, active men of the party are united in his favor; lirious and is all the time crowing like a to carry this or that impossible locality; or now hopeless. who desire to propitiate some dead faction, or fossilized party, are against him. Picking up all these odds and ends and putting population is now 6,844. Assessed value them together, they make quite a show in numbers, and a good deal more in talk.

To-day the prominent men spoken of are Bates and Seward. As things look now, Lincoln's chances are much better for the nation and pre-emption, and there are sev-Vice Presidency, than for the Presidency, enty-two sail vessels and seven steamboats McLean stock is not quoted as high as it has been in some of the newspapers. There is also talk of Chase and Wade. In cerlooking after a second choice.

I ought to say, also, that the friends of Mr. Cameron, of Pennsylvania, are laboring for their favorite, urging that the "old key stone state" ought to be permitted to furnish the standard bearer; but, so far as I have heard, with little success.

A large number of delegates will arrive His Escellency James Buchanan, President of the United States, to-night, and the speculation of to-day be entirely changed to-morrow.

However much each one is intent upon the advancement of his particular favorite, all are determined to support the nominee with a hearty good will. The best feeling your particular friends shall be retained in signs of the times inspire all republicans with a strong hope, amounting almost to a certainty, that the next President of the United States will be a Republican. "So mote it be," responds your correspondent.

P. S.—Horace Greeley, Francis P. Blair, and five others have issued an address to republicans urging the nomination of Judge Bates, a copy of which is enclosed.

Gov. Morgan declines the honor of public dinner, tendered him by a large number of the prominent citizens of New York.

THE TARIFF BILL .- The friends of American industry achieved a signal triumph in the House of Representatives on Wednesday last. Mr. Morrill's Tariff bill was passed by forty-one majority, and this in spite of the most assiduous efforts of the Democracy to stave it off, or kill it by underhand

tactics.

The bill was voted for by the republicans, the democrats of Pennsylvania and New Jersey, and several of the southern ly for such information. We hope they will Let the fact be marked, that the Illinois and other, western Douglas democrats voted against this beneficent measure for the protection and encouragement of American bor and material development.

It is understood that the secretary of the treasury, Cobb, is savagely opposed to this tariff bill, and its rejection by the democratic senate, therefore, is regarded as certain.— Chicago Journal.

THAT GERMAN CONVENTION.—The German convention, about which there has been some unnecessary fume, in view of the fact that it was to be held at the same time and place with the national republican convention, met in a quiet room yesterday morning, and after a short consultation, vo ted that there was no business before the meeting, and adjourned. It was attended by less than a dozen persons, and these were quite agreed that the Massachusetts amendment (concerning which the convention was first mooted) was a defunct issue sor far as the republican party is concerned -Press & Tribune, 15th.

STRENGTH OF THE BOLTERS .- The following was the exact strength of the southern secession from the Charleston convention:

Florida, Alabama, Mississippi, Louisiana and Texas entire; South Carolina entire, with the exception of one vote; Arkansas, ditto; Georgia, twenty-six delegates out of thirty-three, seven having gone home -(Georgia, which has ten votes, was repre sented by a double set of delegates—fort in all. The remaining seven, therefore, lef in the other convention only count one and three quarters ) Delaware, two delegates, including Mr. Bayard; one delegate has gone home, who agrees with the seceders, and three delegates remain in the other convention for the present. Virginia one delegate, and Missouri three.

COURAGE OF A CHILD.—The Cinciunati Gazette of the 3d inst., records the following brave deed of a child, whereby a fearful catastrophe was prevented:

Yesterday, soon after a freight train had passed Shelbyville, on the Cincinnati and Indianapolis railroad, a rail slipped several inches from its place, but without doing any damage to the train, and without the knowledge, even, of any one on it. This was a curve, rendereng it doubly dangerous. As the passenger train going west neared the place soon after, the engineer discovered a ittle boy standing in the center of the track energetically waving a handkerchief. He was not inclined to stop, at first, knowing the fondness of all boys for sport; but learing some difficulty, he whistled and applied the brokes, and succeeded in stopping the train within five feet of the loosened rail. If he had not done so, we should have had to chronicle another shocking ruilroad acci-

The little boy, whose name is McBride, on walking along the track, had discovered that the rail had slipped, and took this method to save the train. He is a noble little fellow, and should be richly rewarded.

HYMN FOR THE DEMOCRATIC CONVENTION T BALTIMORE.—The Toledo Blade suggests that the democracy, on opening their adjourned convention at Baltimore on the 18th of June, join in singing the following stanza from one of Watts' hymns:

The Massachusetts State Fair, which was appointed to be held at Springfield in September, has been abandoned on account of the cattle disease.

RATHER GOOD THAN OTHERWISE.—Two friends met at the post office this morning. One asked the other the stereotyped question of the day: "Are you going to Chi-

"Humph!" said the democrat, "our folks have already gone there."

Euchre players are expected to understand this joke without explanation.

FROG EATING .- They are getting to eat frogs extensively about Kenosha. The Telegraph says:

THE MANUFACTURE OF MOSAICS .- A letter from Rome, in the Rochester Democrat, gives the following account of the manufac ture of mosaics at the Vatican factory:

THE UNIVERSAL METAMORPHOSIS.—If a valer be laid on a surface of polished metal, which is then breathed upon, and if, when the moisture of the breath has evaporated, the water be shaken off, we shall find that the whole polished surface is not as it was before, although our senses can detect no difference; for if we breathe again upon it the surface will be moist everywhere, except on the spot previously sheltered by the water, which will now appear as a spectral image on the surface. Again and again we breathe, and the moisture evaporates, but still the spectral wafer reappears. This exmonths, if the metal be carefully put aside where its surface cannot be disturbed. If a sheet of paper on which a key has been laid for some minutes to the sunbe exposed shine, and then instantaneously viewed in the dark, the key being removed, a fading few years ago reputed to be worth \$150,000, spectre of the key will be visible. THE EFFECTS OF SPIRITUALISM.—Mr. Campbell, the banker, who shot himself recently in Davenport, was the father of the Mr. Campbell formerly of Keckuk, and of the firm of Parmelee and Campbell, jewel-

that during a recent trip over into Hancock 10 o'clock. There he found about thirty zealous Douglasites, who had come in from a distance of twenty to thirty miles, for the especial purpose of learning the news about the Charleston convention, which had then been in session over a week. They were on the landing impatiently awaiting the arrival of the boat. They were all a little tight, and were expatiating enthusiastically on

Douglas' prospects.
"Guess you haven't heard the news,"
said the Keoknk merchant to an obstreperous six footer.
"What news?" "Well, the southern delegates have sece-

ded, and Douglas is 'gone up.'"

"Look here stranger," said the six-footer, straightening himself up, in an emphatic and dignified manner, "you don't talk right. I know them southern felllers. Them southern fellers is too much gentlemen to act that way!" Of course it was useless for the Keokuk gentleman to antagonize such knowledge.—Keokuk Whig.

need only call the attention of all Consumptive sufers, whether in advanced or the incipient stage of the liseuse, to the following extract from a letter addressed to me by a physician of great experience, and extensive practice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary efficacy of my preparation of Hypophosphites:

ficacy of my preparation of Hypephosphites:

CHATHAM, PA., 3d Month, 20th, 1860.

FRIEND J. WINCHESTER \*\* \* Thirty-six persons have obtained the medicine from mr.; twelve of whom have been under my own care, Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritude cough, coplous expectorations of a purelent character, night sweats and enaciation. These cases were from one to three years' standing. Assentiation and percussion developed sounds which, token in connection with other symptoms, gave evidence of a condition from which I have never, in seventeen years' practice, seen a single case recover by any other treatment. \* \* Under the use of the Hypophosphites, all the bad symptoms ceased; they have gained flesh and strength and health—come of them better than they had enjoyed for seven years previously.

viously.

The other cases under my care were in the incipient stage, and in them all symptoms and traces of the discase have disappeared. Of those who were not under my care, I have not heard of a single patient who himself benefitted by the use of the remedy, although in some of them the discase was too far advanced to admit

some of them the discuss was too at the possibility of recovery.

I presume I am as skeptical in medicines or specifics as most physicians; yet, from the experience I have and in the use of Dr. J. F. Churchill's Hemedy for Tuberculosis, I would say to all who have a tendency to that discuss—take it, and the somer the better, before the say disorganization.

A Boy over NIAGARA FALLS .- We learn, says the Rochester Democrat, that a boy ten years old, a son of the late Dr. Maclem and a nephew of Thomas C. Street, of Chippewa, fell into Ningara river a short disance above the falls, on Sunday afternoon, and was carried over the cataract. He was in company with his mother and some other persons on a small island where there is a burning spring, and exhibited a disposition to go too near the edge of the bank, for which he received a caution. He did not heed the warning, however, and in a few minutes he was missed. There is no doubt that he fell into the water, and was swept into the abyss beneath the Falls.

Non-Explosive Burning Fluid USED WITH SAFETY & ECONOMY.

The Best in the Market. Palmer's Drug and Tea Store. Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully ng to the times, in any improvements made in its manufacture. Nearly a year ago, in an appeal in fiver of its more general use, based upon the fact that the raw material from which it is made, is methy the product of our own farms, we publicly amounced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, as now made by those who understand the business in which they are engaged. That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of galons to consumers in this city and vicinity, and if our assumption, was an erroneous one, it would undoubtedly have been discovered are this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, no safer, better or manuagreeable light can be produced. As we are indebted to no traveling "Paor, Green.—O?" for the high state of perfection attained by us in its nammacture, we are, as usual, prepared to offer our Fluid at the LOWEST MARKET FUGURES, and to manufacture, we are, as usual, prepared to offer our Fluid at the LOWEST MARKET FIGURES, and t

rum at the LOWEST MARKET FIGURES, and to guarantee entire satisfaction in its use, or the money re funded. A. PALIMER, As the Wisconsin Drug and Ten Store, three does be low the Ford House, West Milwaukee street, Janes-ville, Wis. FIRST ARRIVAL OF THE

Half-Fare to Chicago.

EDITORS GAZETTE:-The Chicago & North Western railway will sell tickets to Chicago during the republican convention at half-fare-commencing May 14th, good until Saturday evening train from Chicago, Yours, &c., May 19th.

H. E. PATTISON. Wide Awake Club.

Those desirous of forming a Republican Wide Awake Club met at the court room last evening. S. J. M. Putnam, esq., was called to the chair, and a temporary organization was effected.

Committees were then appointed to prepare and report at the next meeting the necessary regulations for a final orgaization; also to procure the names of those who are willing to become members of the club.

The meeting then adjourned to meet at the court room next Friday evening.

It is to be hoped that every republican in the city will be present on Friday evening to hear the reports of the committees, and | well in Wisconsin as in Connecticut or any other eastern permanently organize the club.

DISSOLUTION AND NEW PARTNERS.-The firm of Walker & Skelly, grocers on Milwankee street, having been dissolved, the business will be continued at the old stand by C. Skelly & Brother. We speak from knowledge, both of the men and their goods, when we recommend this establishment to the patronage of our readers. They will find there at all times a seasonable and judicious selection of family groceries, and the proprietors belong to that kind of tra. ders who, when they get a customer, will keep him.

SEDDEN AND MELANCHOLY DEATH.-On Sunday evening, last Miss Elizabeth Bent, who resided with her uncle, Mr. Peter H. Inman, of this city, retired to her room about 5 o'clock. A few minutes after, she cried out that she was dying. Mr. and Mrs. Inman immediately went to her room and found her in spasms. A physician was called, but too late to, render her any assistance. She died in less than half an hour after going to her room. She was about 20 years of age, active and intelligent. She was of a highly respectable family, and her relatives in this vicinity are among our most respectable citizens. Her father is an engineer, and absent on business in the southern states. It is truly a sad affliction to her relatives and friends, who can now but mourn her early and premature death.

A GOOD ABBANGEMENT .-- An arrangement has been perfected by which the Milwaukee and Mississippi railroad run passenger and freight trains to connect with trains on the Galena and Chicago road at Hanover station, 6 miles west of this city. This is virtually a resumption of the arrangement lately broken up, or at least, gives our citizens the benefits of a direct transit over the Galena and Chicago road. The people of Janesville generally will be gratified that the threatened non-intercourse between them and the Galena road has not been consummated.

We have been at some pains to enquire of farmers that call on us, in reference to the coming wheat crop, and the universal testimony is that it never looked as promising as it does this spring. The weather, though uncommonly dry, has not with all farmers. Also, yet injured the crop a particle. We may look out for full granaries this fall.

Among the outside delegation that have gone to Chicago from our office to assist in the nomination of a republican president is one of our compositors. He is for Seward "every time," and we we are ready now to go ten "better" on the nomination of that distinguished statesman.

We shall send our financial proprietor tomorrow, which, we think, will make the thing sure.

WIDE AWAKE CLUB .- We trust the adjourned meeting of the club will be fully attended by our republican friends in the city. It is bound to be a feature-a regular institution in the present campaign. Let us not be backward in enrolling our names at the commencement as "regulars" in the good cause.

At a special meeting of Rock River Engine Company No. 1, held at their hall. on Monday evening, May 14th, 1860, the following persons were elected officers of said company:

Foreman-D. C. Ward. First Assistant—James Croft. Second Assistant-W. M. D. Birt. Treasurer-Egbert H. Grey. Secretary-S. Foord, Jr. Steward--S. L. Chase.

OPENING OF THE SAUT CANAL.—The De troit Free Press of Wednesday last, has the following in relation to the opening of the Sant Canal:

"The latest intelligence from Saut Ste. Marie states that the canal, instead of being opened on the 10th inst., as was promised, will not be opened before the 20th, at the earliest. Had the repairs been completed at the time they should have been, navigation would have been resumed three weeks ago, as the ice was out of the lake and river at that time, so that it would have formed but very little, if any, impediments

A draper's advice to his son, in selecting a wife, is, "get a piece of calico that will wash."

Gas .- Indignant Customer .- My bill is larger than ever before, and there must be a mistake. Please examane it again. Clerk.—The bill, no doubt, appears larger to you than you expected; but you do not understand the meter, and we insist up-

n full payment. Consumer.-How do you sell your gas-

by long meter or short meter? Bystander, (also indignant at the size of his quarter's bill,)—Why they charge you by long meter, and when you complain they answer you in short meter.

A BOY OVER NEAGARA FALLS.---We learn says the Rochester Democrat, that a boy ten years old, a son of the late Dr. Maclem, and a nephew of Thomas C. Street, of Chippewa, fell into Niagara river a short dis-tance above the falls, on Sunday afternoon, and was carried over the cataract. He was in company with his mother and some other persons on a small island where there is a burning spring, and exhibited a disposition too near the edge of the bank, for to go too near the edge of the bank, for which he received a caution. He did not heed the warning, however, and in a few minutes he was missed. There is no doubt that he fell into the water, and was swept into the abyss beneath the Falls.

Words are sometimes signs of ideas, and quite as often of the want of them.

Non-Explosive Burning Fluid USED WITH SAFETY & ECONOMY The Best in the Market.

Palmer's Drug and Tea Store Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in Burning Fluil, and have always, thus far, kept fully up to the times, in any improvements made in its manufacture. Nearly a year age, in an appeal in favor of its more general use, based upon the feet that the raw naterial from which it is made, is mothly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, as more made by those who understand the business in which they are angaged. That inducy from its use was either the result of gross curelessness, or of undue ularm cunsed by a belief in its explosive power," &c. Since them we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered are title. sumption was an erroneous one, it would undoubtedly have been discovered are this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, no safer, better or more agreeable light can be produced. As we are indebted to no traveling "Prof. Green—O!" for the high state of perfection attained by as in it anamaticiture, we are, as usual, prepared to offer our Fluid at the LOWEST MARKET FIGURES, and to guarantice entire satisfaction in its use, or the money refinded.
